## EDUCATION

---

### Mumbai, Maharashtra

- Bachelor's of Engineering (B.E.) University of Mumbai. Passed with **9.6 SGPI** (2019-2022)
- Diploma in Information Technology Maharashtra State Board of Technical Education. Passed with 87.65% (2016-2019)

## TECHNICAL EXPERIENCE

---

### Projects

#### Property Listing Website

- Enhanced user experience by developing a website using HTML, CSS, Bootstrap4 and PHP (Laravel).
- The portal was used for listing properties that a person wishes to rent, sell or lease.
- Multi User Authentication implementation for User and Admin logins. User would list the desired property and Admin verifies the property; after verification property was listed.
- Integrated Instamojo Payment Gateway. For premium listing of properties a person can pay using payment gateway and list their property as premium property.

#### Fix My Device

- To provide technical support for hardware issues faced by users, assistance over Web Application was implemented
- Technologies used were **PHP, Laravel Framework, and MVC Architecture.**
- If a user faces query regarding their electronic hardware devices, ticket is to be raised for the specific device. Admin gets the hardware related query along with Address and Date and time of visit.
